DETAILED ACTION

1. This Office action acknowledges the applicant's Amendment A, presented as Paper No. 6. Claims 1-8 are pending in the application.

Election/Restrictions

2. Newly submitted claims 1-8 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Originally presented claims 1-7 were directed to a single sheet of connected nails. Amended claims 1-8 are directed to a nail-feeding magazine.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-8 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

As such, no claims remain for examination.

3. To avoid abandonment of this application, applicant, in response to this Office action, must submit a new set of claims consonant to the invention as originally claimed, even though the instant restriction be traversed.

Specification

4. In light of the applicant's amendment, the objection to the specification is hereby withdrawn.

Drawings

5. The drawings were received on July 7, 2003. These drawings are unacceptable, see below.

6. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the multiple loading-type nail magazine of claim 1 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Response to Arguments

7. All arguments are directed to the non-elected invention mentioned above and are therefore irrelevant to the invention elected by original presentation.
